

**STEPS  
TOWARDS  
A CURE**  
FOR **NEUROFIBROMATOSIS**

# MOVING TOWARDS A FUTURE FREE FROM NF TUMOURS

*Tackle 150km this May for the 150 children born with neurofibromatosis (NF) each year in Australia.*

Neurofibromatosis is a big word when you are a little person. Steps Towards a Cure is your chance to support countless kids who are waiting on treatments that don't yet exist.

Proceeds will go towards the Children's Tumour Foundation and life-changing NF research.

**TOGETHER WE  
CAN TACKLE NF**
